Saturday morning about 7 o'clock Ohio River freight engine 23 struck a pile of gravel that had slipped upon the the track, and was overturned, rolling down the bank at the side of the track. The irrean jumped off and escaped injury, but engineer Hugh Ried went down with his engine and was penned under it until released by his fellow trainmen. He was only slightly hur, and left a little later for his home at Constitution, near Parkersburg. Twelve or thirteen cars accompanied the engine down the bank, and were all more or thirteen cars accompanied the engine of the first train bound south had to return to the city. Later arrangements were made to run Ohio River trains over the B. & O. road between Wheeling and Moundsville.

Both the effect and result when Olivo Blossom is used. It acts gently, yet promptly. It is the greatest boon to womankind. Every ladly can treat herself and not have to undergo the torture of instruments from physicians. Olivo Blossom positively cures all forms of female weakness, such as Painful Men. Washington, Pa., Esporter, Saturday.

Colonel Arnett, the Wheeling attorney employed to defend Teaters, is quite eminent as a criminal lawyer.

When a boy of eighteen or twenty years of age he was a colonel of cavalry in the lemale weakness, such as Painful Men-struation, Ulceration, Larceration, Bar-renness, Leucorrhoza, Pruritus, Cancer, Ovarian and Fibroid Tumors in their early stages and the long list of innumer-able and unmentionable sufferings that afflict the patient. The Olivo Bloossom treatment is simple and harmless. The first application often gives permanent relief. Try it, and you will exclaim When a boy of eighteen or twenty years of age he was a colonel of cavalry in the Confederate army and on that account prior to 1872. He practiced for six years in St. Louis and since coming to Wheeling was employed in the famous Snell case which went to the Supreme Court of Ohio. Snell was finally cleared.

Colonel Arnett was also employed in the Van Baker case, not coming into it till after the defendant had been convicted of murder in the first degree. He manged to secure a new trial, a change of venue and brought the punishment down to imprisonment for life. The colonel is a large, stoop shouldered man, of very heavy build; about est help, but does not want revealed. He is a slow talker and gives the impression of great candor. At the 'Squire's office, before the hearing, he talked quite freely about Teaters, telling how he left Wheeling three weeks ago because he could not endure to be called "scah," an epithet he had unfortunately won as a street car employe, though the course hyper and diarrhoea, regulates in the case of the course he could not endure to be called "scah," an epithet he had unfortunately won as a street car employe, though the course hyper and diarrhoea, regulates in the case of the course hyper and diarrhoea, regulates in the vast amount of labor performed by the heart in keeping all portions of the body supplied with blood is not he bedy supplied with blood at the rate of 168 the body supplied with blood at the rate of 168 the heart in keeping all portions of the body supplied with blood at the rate of 168 the body supplied with blood at the rate of 168 the body supplied with blood at the rate of 168 the body neer ince a dimerent woman!" The Wool Trade.

Brachtech.

Wool is still moving freely. The market is in sellers' tavor, and dealers show great eagerness to advance prices still higher. Manufacturers are said to be well supplied with stock. It seems hardly possible for sales to reach the figures of two weeks ago for some time to come. Nevertheless, at the rate manufacturers of worsted and dress goods are turning out cloth there is little possibility of a great weakening in the demand for wool, it is expected in most quarters that prices will hold firm for several months. At Boston there is a better demand for

California wools, and large quantities have changed hands the past week. Fine territory wools are still selling well, with a slight advance in prices. Ohio and Michigan wools are very firm, with dealers stocks much reduced. Australian wools are selling well, and are rapidly gaining favor. The condition of the foreign market affects them more than any of the domestic supplies.

some reason for it

We never have compelled anyone to use Pearline. We'd like to, but it isn't feasible. Besides, it isn't necessary. Millions use Pearline, and have tested and proved it. It's too old to be unknown, if it were a fraud, but where is the thing as popular and yet so young? If you know Pearline, you know the reason. In all washing and cleaning, there's nothing that saves as much labor and does as much work. It hurts nothing, saves wear on everything, costs no more than common soap and is more economical. Reasons enough for most women; think, are they not good

enough for you? Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as " or "the same as Pearline." IT'S FALSE—thing in pikes of Pearline is never peddled, and if your grocer sends you something in pikes of Pearline and the bases thing—send it back. 176 JAMIS PYLE, Kew York.
